Part no.: 422 0236 10

OE numbers: 04E 109411 H
 04E 109411 J

Figure 1: Version 1

Two different types of finger follower (image 1 and image 2) can be installed in the engines mentioned above. They only differ from one another in terms of visual appearance, and both fully meet the technical requirements.

For this reason, Schaeffler only offers the type of finger follower in image 1 with the item number 422 0236 10.

Figure 2: Version 2

Always replace in sets!

As a basic measure, all finger followers in the engine must be replaced at the same time. To avoid multiple repairs and unnecessary costs, it is also advisable to replace the finger follower and the valve clearance compensation element at the same time.

Observe the specifications of the vehicle manufacturer!
